# SUMAN JYOTI DHAL
## Web Developer (React)

## SUMMARY

2+ years experienced React Developer with hands-on experience in identifying web-based user interactions along with designing & implementing highly-responsive user interface components by deploying React concepts. Proficient in translating designs & wireframes into high-quality code, and writing application interface code via Javascript and ReactJS workflows. Adept at monitoring & maintaining frontend performance and troubleshooting & debugging the same to bolster overall performance.

## PROFESSIONAL EXPERIENCE

### Frontend Developer
**Mobinius Msys Digital**

Jan '20 - Present
Bengaluru.India

UI Components Designing & Application Interface Coding
- Identified web-based user interactions and developed highly-responsive user interface components via React concepts Translated
- designs & wireframes into high-quality code and wrote application interface code via JavaScript following React.js workflows

Application Development & UI Designing
- Coordinated with the development team to discuss user interface ideas and applications
- Reviewed application requirements and interface designs to ensure compatibility with existing applications Webpage

Designing & Optimization
- Determined the structure and design of web pages based on user requirements and balanced functional & aesthetic designsCreated
- features to enhance the user experience while ensuring that the web design is optimized for smartphones Employed a variety of
- languages such as HTML and CSS to write & create user-friendly web pages

Coding & Website Improvement
- Built reusable code for future use and optimized web pages for 5 applications for maximum speed and scalability Managed
- brand consistency throughout the design and maintained & improved the company's website by adding morefeatures and functionality

Performance Optimization & Features Development
- Monitored and improved front-end performance by 15% and documented application changes & worked on updates Developed.
- the latest user-facing features using React.js and built reusable components & front-end libraries for future use Optimized.
- components for maximum performance across a vast array of web-capable devices and browsers

Project Delivery .
- Liaised with cross-functional teams to ensure that the client projects were completed on time and within a stipulated budget Produced
- high-quality mockups & designed different prototypes and provided high-quality graphics & visual element .

### Key Projects

**Neuroglee**

Dec 20 —Presents
Singapore

*One of the health care platform and cognitive science which provides Digital therapeutics for neurodegenerative disorders*

Designed Application for Clinician ,Admin Dashboard, Support Dash Board - Web ApplicationCaregiver - (Hybrid APP Designed with React Native )
Patient and MCI - IOS swift

**Responsibilities and Outcome -  Lead fronted Developer**
- UI Development and requirement Analysis  .
- Development and enhancements of application based on client requirements.
- Developed CRUD application using Restful Services for Clinician and Admin Dashboard Using Multi Users .
- Worked Code Optimization and Responsiveness with various Resolution and reusable components.
- Worked with Web Sockets for Communications  Protocol using Twillio Services.
- Worked on Notification Services Via FCM using Services Worker .
- Worked on useful packages like GraphQl , Material UI, FCM .
- Contributed new ideas on development activities during design phase.
- Direct interaction with clientsvia mail/slack.
- Participate and Represent Weekly Demo to  Clients

**TrePhoria**                                                            May 20– Dec 20
                                                                              UAE

*One of the concerts booking platform.*

Designed Application for Clinician ,Admin Dashboard,  Web Application

**Responsibilities and Outcome -  fronted Developer**
- UI Development and requirement Analysis .
- Development and enhancements of application based on client requirements.
- Worked Code Optimization and Responsiveness with various Resolution and reusable components.
- Worked on useful packages like Redux, Bootstrap and postman,
- Participate and Represent Weekly Demo to  Clients

**Greencubes**                                                           Sep 20– Nov 20
                                                                            Bangalore

*One of the logistic services.*

Designed Application for Clinician ,Admin Dashboard,  Web Application

**Responsibilities and Outcome -   UI Developer**

Worked Code Optimization and Responsiveness with various Resolution and reusable components.

## KEY SKILLS

- UI Designing
- Coding
- Application Designing
- Wireframe & Design
- Translation
- Debugging
- Front-end Architecture
- Performance Improvement
- Feature Designing
- Webpage Designing
- Webpage Optimization
- Project Delivery
- Client Surviving

## TECHNICAL SKILLS

**Languages:**
- JavaScript
- CSS
- HTML

**Tool/ Framework**
- React
- React Native
- Git
- Jenkin
- Jira
- Webpack
- Redux
- Babel
- Webpack
- NPM
- Linux/Window

## EDUCATION

**B. Tech. in EEE (CEB)**

BPUT University

Jan '14 - Jan '18

Bhubaneswar

## CERTIFICATIONS

- Web Certification (Full Stack Web Development) | Jspyder Btm| Dec '19

**Declaration**

I hereby declare that the above written are true to the best of my knowledge & belief.
